The submission deadline is November 6, 2015 and will not be changed. Supplementary materials can be submitted until November 13, 2015.

Policies

In submitting a manuscript to CVPR, authors acknowledge that no paper substantially similar in content has been or will be submitted to another conference or workshop during the review period (November 6, 2015 – March 2, 2016). Please refer to the conference web site for additional details concerning prior work.

By submitting a paper to CVPR, the authors agree to the review process and understand that papers are processed by the Toronto system to match each manuscript to the best possible area chairs and reviewers.

All accepted papers will be made publicly available by the Computer Vision Foundation (CVF) two weeks before the conference. Authors wishing to submit a patent understand that the paper becomes of public domain after the final (camera-ready) version is submitted. More information about the CVF is available at <http://www.cv-foundation.org/>.
